Wooden tablet

Cushion

Comfort head rest

Model: Stefan UK

Product and ordering information

Frame:	Load-bearing parts of the frame made of solid wood and wood materials, surfaces lined with padded cover.
Seat:	<p>Spring system with permanently elastic steel sinuous springs and upper-side cover. Loose seat cushions with a PUR foam core, covered with a ticking (filled with high quality filling material which may contain an admixture of feathers), according to the requirements of BS 5852.</p> <p>We exclude „live plucking“ for the procurement of these feathers! Cover made of cotton wool fleece.</p>
Upholstery:	<p>(for illustration see „cross sections and ordering information“)</p> <p>A „particularly casual upholstery“ is characterised by a very comfortable and soft surface. This is achieved, for example, by a ticking with various fillings (e.g. fibres, balls. down, feathers or similar materials). In the upholstery construction, a foam core or foam cushion, conforming to the requirements of BS 5852, usually represents the basic upholstery. Already in new condition or after the first use the covers can exhibit a pronounced wave pattern on the seat, back and armrests purposefully based on the design, material and construction which will increase during use. The size of the sewn covers also has a similar influence on sinking and cover stretching. Conclusion: The softer the upholstery and the larger the seat, the greater the sinking in and, ultimately, the stretching of the cover.</p>
Back:	<p>Loose back cushions with a ticking (filled with high-quality filling materials which may contain an admixture of feathers, in accordance with BS 5852 requirements.</p> <p>We exclude „live plucking“ for the procurement of these feathers!</p>
Chamber cushions:	<p>This model features high-quality chamber cushions. The filling material is held in chambers within the cushions to prevent it from shifting. The chambers and the filling material can stand out more or less depending on the type and thickness of the cover material. In order to prevent the filling material from bulging, these seat and back cushions should be plumped up, just like you do with pillows.</p>
Decorative fabric:	<p>The decorative fabric (decorative fabric PG 6 / decorative fabric PG 10) is only available for selected types (Stool, flutter cushions and cushions) and pattern matching is not possible. The prices can be found on PG 6 or PG 10.</p>
Dimensions:	<p>Height: 83 cm Depth: 125 cm Seat height: 43 cm Seat depth: 84 cm</p>

Model: Stefan UK

Product and ordering information

Miscellaneous:

The seam appearance may vary depending on the fabric, leather or vegan leather used. The markings on quilted mats and cushions are due to design or construction. The processing of decorative seams, cut seams or double seams can be different in the fabric, leather or leather or imitation leather variants. Suites are standardly delivered with the back covered in the chosen fabric. All materialrelated information can be found on the back of the individual fabrics and leathers in our fabric and leather samplers. All values stated in the price list are approximate measurements in centimetres and in unused new condition. Please note that in the course of use of very casual upholstered furniture, particularly the seat height and seat depth, there may be noticeable deviations from the dimensions given here. We reserve the right to make changes in form, colour and construction in the course of technical progress. **Please note orders always as standing in front of it from left to right!**
